PROJECTS

CaseNote (Rails, PostgresSQL, React, Redux)   Live   GitHub

Fullstack legal opinion annotation app inspired by Genius

- Customized Quill rich-text editor to track and render inline annotations to allow users to create stylized content
- Ensured seamless and responsive user experience for browsing and creating annotations through React and Redux
- Implemented dynamic search tool through custom SQL queries

Art Schmart (JavaScript)

Browser-based computational photography tool

- Developed algorithms to alter images to reflect artistic movements, including Impressionism and Pointillism
- Dummy bullet
- Dummy bullet

DOMDOMDOM (JavaScript)

JavaScript DOM interaction library

- Created tools to traverse and manipulate DOM using plain JavaScript
- Implemented event handler functions
- Utilized JavaScript to query APIs
